

Past Performance

Current Recovery Team:

- **Hurricane Michael** - Fleet of fuel trucks and hundred generators sites producing power supporting first responders, FEMA, critical power, water and communications systems.
- **Hurricane Laura** - 250 generators sites for the City of Lake Charles & helped with the response to Laura for over 150 continuous days -providing critical infrastructure fuel support for city services, utility companies, hospitals & debris removal efforts.
- **Hurricane Ida** - Provided emergency fuel support to hotels, police & fire station. Over 100 deliveries per day in eight different Louisiana parishes providing diesel fuel to recovery camps, FEMA disaster recovery centers & covid monoclonal infusion sites for more than 6 months.
- **Hurricane Ian** - Responded within 24 hours for base camp operations and recovery efforts for the 250 Florida Dept. of Transportation (FDOT) employees. Provided 20k gallons of diesel fuel to 25 locations, generators, and heavy equipment to assist in the efforts allowing FDOT to rebuild the damaged roads and bridges assisting in the life saving efforts for Sanibel Causeway, Matlacha Bridge and the Fort Myers Beach City Hall Command Center.

Notable Storms Worked: Maria, Irma, Michael, Dorian, Laura, Ida, Ian.
